rendale ESIGNS Dale Spring/Summer by Han CATALOGUE 2022

## welcome... to our 2022 brochure

It really doesn't seem long since I was writing the introduction to our last catalogue, but here we are again with a fabulous new collection and lots of new designs and products to introduce to you and your customers. There have been many challenges over the past two years and I am so proud of our team here at Wrendale for continuing to deliver exciting new product development and excellent customer service despite • the headwinds.

The t-shirts are a completely new category for us and we absolutely love the results — we're offering them in a bundle with a variety of sizes and supplying them with a branded wooden hanger to make it easier for you to display them. The extension of our very popular gardening range with additions of tool bags and garden belts as well as brand new gloves in three patterns are a personal favourite.

We've also added extensions to many best selling lines including canvases, socks, scarves, watches and more.

On the greeting card front, we've introduced the most beautiful range of seed cards — each one features a pocket which contains a mix of native wildflower seeds making them unique and a very special gift. They can be supplied with a countertop spinner to help with the display.

Finally, we've got lots of additions to the Christmas collection \_\_\_\_\_ including stockings, Christmas soaps and socks.

We hope that you enjoy browsing the catalogue and hope to see you in person at an upcoming trade show.

Hannah, Jack and the Wrendale team

As part of our commitment to sustainability, you will notice that we are eliminating single use plastic packaging from our cards and giftware going forward. Please bear with us as we phase out the older types of packaging in favour of newer and more environmentally friendly methods that will still ensure that our products arrive to you in perfect condition.

### our cards are available UNWRAPPED upon request...

In an effort to reduce the amount of single use plastic further, we are now offering retailers the option to receive our cards 'unwrapped'.They will be sealed with the envelope using a low tack sticker which can easily be removed without damaging the card to prevent the envelopes going astray.The unit of six will then be bound in a paper belly band rather than a cello bag.

The board our cards are printed on is an integral part of our product — made from sustainably sourced pulp, it is milled in the Lake District and the uncoated, textured surface has become synonymous with our brand. Unfortunately, this material is easily marked by fingers perusing cards in a stand and while we fully appreciate the need to reduce the quantity of single use plastic in circulation, we feel that we need to make retailers aware of the downside of receiving cards with no protective wrapper.

As part of our commitment to sustainability, you will also notice that we are in the process of transitioning to biodegradable cellophane to package our cards and stationery.
